

COLLECTION 4.0

DANISH DESIGN

Sustainability

We are supporting the green transition and are therefore, producing our wooden toys from sustainable wood.

Look for the FSC® mark, which is your guarantee for responsible production within wooden toys, and thereby, you are also supporting our climate.

FSC stands for Forest Stewardship Council® and is a non-profit organization. The organization works to promote responsible forestry.

The mark of
responsible forestry

Resources

We are focusing on producing toys of high quality and with high play value.

We encourage everyone to pass on their toys. It can be for thrift stores, family and friends or save the toys for the next generation.

In this way, we are supporting a good cause and are limiting waste of resources.

We have developed a logo that symbolizes our idea of this. Since 2020, you have been able to find this logo on all our products where it is possible to print it.

Social responsibility

We also take responsibility in our immediate area. Among other things, we take active part in the education of students who need an internship or projects. We are offering internships to people who need work testing in relation to future job opportunities or permanent part time positions to people who are not able to work full time.

It lies deeply in our DNA that we need to take care of each other and make a difference wherever we can.

Welcome to our by ASTRUP® Universe.

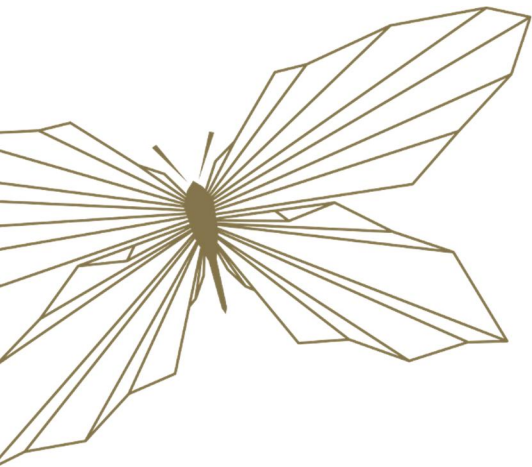

In the by ASTRUP® Universe countless hours of play lie ahead and where the child can either play alone or with his friends. There are endless possibilities.

If you want to be a princess for a day or play father, mother and child with your friends, you can find exciting products in the by ASTRUP® Universe. Here you will find our lovely Cuddle Dolls, make-up sets, doll prams, a changing table and a wide range of accessories. There are many options to choose from.

In 2020, we launched an exciting horse universe and there are now even more opportunities for play. If you want to be a prince or knight, see our exciting news in disguise for the prince or the cockroach here in 2021.

Through play, the child develops the skills to be used throughout life, so we are taking our responsibility as a toy manufacturer seriously and are developing toys with meaning. The use of toys is supporting a wide range of learning areas, including language skills, speech and form comprehension, problem solving, color recognition and not least the child's ability to communicate, cooperate and resolve conflicts through role play.

The by ASTRUP® Universe is your guarantee for fun and meaningful learning through play.

LET'S FLY LIKE A BUTTERFLY

ASTRUP Group A/S is a Danish, family-owned toy company located in western Jutland.

We are designing and producing quality toys for families with children and have strong competencies within wooden toys. Today, we are a leader when it comes to designing new products in the field of wooden toys, learning games, play furniture and sets.

When developing new products our starting point is always children and their development. We want to create different worlds, where children develop their potential through role-play. We design products that either reflect reality or support the imagination and the possibility of dreaming.

Through our brands MINI MOMMY™, MAMAMEMO® and by ASTRUP®, the ASTRUP Group A/S has experienced increasing growth since 1997. Our emphasis is on quality, functionality, design and responsibility in the development of our company and today we are represented in a large number of markets - either through distributors, agents and retail stores, including online shops.
